

**RAISING INDUSTRY
STANDARDS SINCE 1919**

Why use a MUTA Member? What's in it for me?

Let's face it... there are some brilliant marquee and tent hirers out there, and some very poor ones too. The best will build you a first-class structure, keep your stress levels low, manage your on-site risk and be a delight to work with. The worst ones will make your event a nightmare. MUTA is only interested in having the best companies as members.

Our members sign up to a Code of Practice requiring them to be legal, decent, honest and truthful. They are obliged to provide a professional standard of workmanship, to check all their own work, and to maintain public liability insurance of at least £1m. They must follow MUTA's industry-leading Best Practice Guide and submit themselves to independent inspection to ensure that they do. Members who fail their inspection are required to make immediate improvements; failure to do so results in expulsion.

If something goes wrong, MUTA members must promptly, efficiently and courteously investigate any complaint. If that process fails, customers can complain directly to MUTA. If MUTA upholds the complaint, members must take the required action or be expelled.

So don't take a risk...

Use a MUTA Member - and give your event the best chance of success.
